

Workforce Management Software Specifically Designed for Retail Banks

Software Products

Put the right bankers in front of customers at the right time and place.

Enables branch managers to optimize allocation of all branch staff according to the forecasted customer traffic pattern and work content. With CloudCords Scheduler, branch managers can easily and quickly optimize schedules, visualize impacts, and play with what-ifs for shift plans.

Reduce operational expenses by avoiding overstaffed periods.

Utilizes Kiran's innovative predictive models for strategic workforce planning, transaction forecasting, and resource alignment to deliver workforce capacity plans and operational forecasts for each branch with up to half-hour granularity.

Delivering Measurable Results

What Customers are saying

"We performed an extensive review of workforce optimization solutions and found that our business and technical requirements were best addressed by Kiran's CloudCords Suite."

EVP, Consumer Banking
First Tennessee Bank

"With Kiran's advanced workforce analytics, we are able to understand the value of a team member in every service transaction. That's critical to making sure we don't have too much or too little resource capacity."

EVP, ATM Banking & Store Strategy
Wells Fargo Bank

"We conducted a comprehensive review of workforce optimization solutions. With their advanced analytics capabilities, best-in-class software and services, and deep banking expertise, Kiran Analytics met our requirements better than the alternatives."

Head of Retail Banking
Fifth Third Bank
