

## Discover insights hidden in your branch and staffing data. Turn insights into action.

CloudCords Data Analytics provides powerful tools to access, analyze, and visualize your data for making better decisions faster.

### Make better strategic decisions with custom reports and dashboards

Extracting insights from large amounts of your branch and staffing data will help your executives make better strategic branch transformation decisions faster.

CloudCords Data Analytics provides powerful and intuitive tools to access and query your data, to create custom dashboards and visualizations, and to share them with executives for strategic decisions.

### Enable line of business leaders to make confident operational decisions

Line of business leaders need custom, recurring reports and dashboards to identify patterns, trends, or outliers.

CloudCords Data Analytics enables you to arrange a group of charts and tables into custom dashboards for continual tracking of KPIs. The dashboards are automatically updated to deliver the most current information for confident decision making.

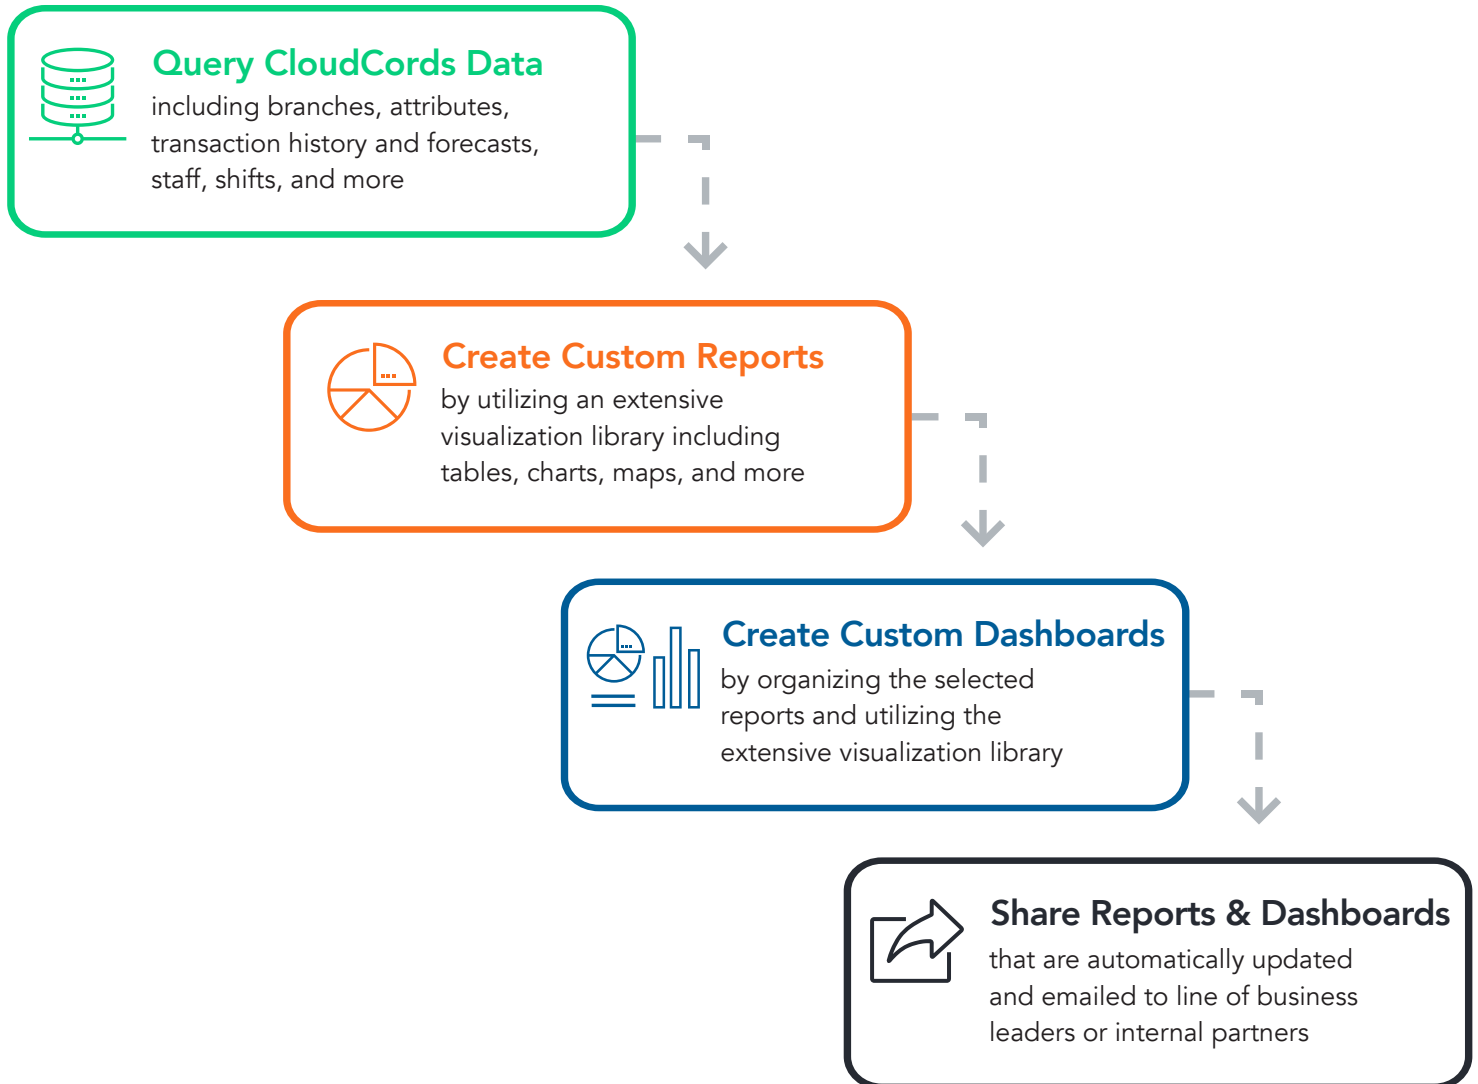

### Find answers quickly for specific business questions

From time to time, internal partners such as finance, HR, or compliance may have specific business questions that require ad hoc analysis.

CloudCords Data Analytics enables you to quickly answer specific questions by creating custom queries with selected data sources and generating custom reports.

## Drive Confident Decisions Supported by Data

Kiran Analytics, a Verint Company, is a leader in accelerating banking transformation through the application of advanced analytics.

Our branch workforce management products and process improvement advisory services help financial institutions improve customer experience, operational efficiency, and business performance.
